Pets

Domestic animals (**only small DOGS** and cats) are allowed in Letnia Kuchnia for **50 PLN** (all stay) / 15 EUR. Please inform us while booking.

Please also note that Letnia Kuchnia is inhabited by Sikkim and Misiak (big and friendly dogs). If you come to us with a dog or cat, remember that we live in a forest with boars, dears, wolves, foxes, badgers and other wild animals 😊. The area is partially fenced. There are also several backwaters and a pond. Last but not least, we highly recommend you to protect your beloved animals against fleas & ticks before coming.

Art of cooking, living and use of places

We don't provide any heating system in the rooms. Only the cabin Warmiak has a fireplace.
The rooms are without lock system.

Food served in Siedlisko Letnia Kuchnia is prepared by us on site. The base of the menu are fresh vegetables from our ecological garden as well as grains and cereals. We also do serve some meats during the week. For breakfast you will try our homemade bread. All preserves, jams, pastes and purees are homemade too. Food is usually international cuisine, mostly vegetarian. Most often we serve a soup, main course and dessert. Sometimes we light a grill or bonfire, then the menu is adapted to the circumstances.

Based on the assumption that healthy and varied food is what children may miss every day, we prepare the menu so that they always find something for themselves.

We eat all meals at the common table. We serve breakfast between 9:00, dinners always at 18:00. During the day you can use an additional service - coffee, tea, cold drinks and snacks. You can also use our kitchen to prepare your own lunch food.

The customer accepts and agrees to use the room and the common areas made available to him as a good father. In particular, you are asked not to smoke inside the rooms and common areas.

You are also asked to respect the rest of the other customers from 9:30 p.m. until 7:00 a.m. The summer kitchen remains open and is available to take advantage of summer evenings.

The customer agrees to return the rooms in perfect condition at the end of the stay and to systematically declare - and to assume financial responsibility - any damage for which they would be responsible. These degradations also relate to equipment made available (bicycle, boats, games, etc.)

The attention of the hosts is drawn to the fact that minors evolving on the property are placed under the sole and entire responsibility of their parents or persons having authority over them.

Any behavior contrary to the principles of safety and / or hygiene, good customs and / or public order may lead us to ask the Customer to leave the Guesthouse without any compensation and / or without any refund if a settlement has already been done.
